**Sharing news, updates, and questions**

- NCLA conference proposals are due April 15th
- Central Piedmont - incredible move to 8-week classes; creating more work for librarians rather than less; do instruction at the beginning of the semester and at the end
- Touger says that instructions don't want librarians in the classroom
- Lot of hyflex classes at South Piedmont; challenging because some students may be in the classroom and some are online
- Touger asked if anyone does library tutorials and make them available on YouTube? Central Piedmont does some short (1-2 minute tutorials), has tried LibWizard as well
